Code Reading Guide

How to read Mazi product codes.

05

Technologies

Technologies used in Mazi equipment.

06

IP CCTV - Recorders

NVR with IP technology from Mazi.

10

IP CCTV - Cameras

Mazi IP Cameras from Eco, Flex, Value, Pro and Ultra series.

22

HD CCTV - Recorders

DVR with HD technology from Mazi.

25

HD CCTV – Cameras

Mazi HD Cameras from Eco, Flex, Value, Pro and Ultra series.

Technologies

Mazi Technologies Definitions

Advanced video analytics technology for object and person classification. Reduces false alarms and search times.

Brilliant 24/7 color video image, even in low-light conditions.

Sensor and lens design provides excellent all-round vision in daytime images and high-quality color images in dark and nighttime environments.

Deep-learning algorithm quickly and easily detects objects in videos and classifies them as people, vehicles or others.

Intelligent lighting modes: White Light mode (color images, clear details), IR mode (black and white IR light) and Smart mode (intelligent switching between the two modes when an object is detected).

Integration of multiple lenses that allow a 180° panoramic view and smart-linkage functionality (automatic object detection and intelligent tracking).

Advanced ultra HD rendering of 180° or 360° panoramic images. Fast positioning in the largest areas.
